

NEW HIRE • DAY ONE

Getting started at Dot One Media

Welcome. Work top to bottom on your first day. Your role packet and the full Employee Handbook have the how-to; this is the checklist to get set up and oriented.

Set up

- ☐ Get your account from an Owner/studio and your role confirmed.
- ☐ Studio staff: sign in at portal.dot1.media (it also opens assets.dot1.media).
- ☐ Newsroom staff: sign in at editorial.dot1.media.
- ☐ Confirm you can see what your role should, and note anything missing to ask about.

Read

- ☐ Read your role packet (Studio & Photography, Reporter, or Producer).
- ☐ Skim the Employee Handbook — especially the section for your work.
- ☐ Open the in-app guide in whatever system you'll use most.

Know the addresses

- ☐ dot1.media — the public company site.
- ☐ portal.dot1.media — client jobs (studio + clients).
- ☐ assets.dot1.media — gear and lifecycle.
- ☐ editorial.dot1.media — the newsroom.
- ☐ news.dot1.media + the Dot 1 News app — what readers see.

Understand how we work

- ☐ Access is by role — you'll see only what your role allows.
- ☐ We do the work to a standard and keep a record; the systems enforce it.
- ☐ Never share your login or enter passwords/payment details into an automated tool.
- ☐ Protect client and tipster confidentiality.

Your first tasks

- ☐ Ask your lead for one real task in your main system and do it end to end.
- ☐ Find the runbook for it in your packet and follow it.
- ☐ Note anything confusing — that's how the guides improve.

Questions? Ask an Owner (newsroom) or the studio. Welcome to the team.
