TROUBLESHOOTING

AI Desk says “not configured”

Generation key isn't set on hosting. A maintainer adds it.

AI draft won't auto-publish

Needs BOTH: Ready to Publish AND a complete dual-rate (2nd human rating).

Published story shows no gold mark

Published before the provenance update, or never got a 2nd rating. Re-publish.

Graphics don't show in OBS

Hard-refresh the OBS browser source; confirm it points at the overlay output.

A story won't publish

It isn't Ready to Publish — finish claims, checklist, editor approval.

A page or button is missing

It's gated to your role. Ask an Owner to grant it in Accounts.

Published edit/delete unavailable

News-database connection isn't set on hosting. A maintainer configures it.

Tips aren't arriving

Confirm the sending site points at the tip endpoint; arrivals show in Tips.

ROLES AT A GLANCE

Owner

Everything, and grants access to others. Cannot be locked out.

Editor

Reviews, approves, publishes; corrections, standards, audit.

Reporter

Creates & works stories: sources, evidence, verification, ratings.

Producer

Runs the broadcast and on-air graphics.

Viewer

Reads the newsroom without changing anything.

Access is by capability.

An Owner can grant any single ability to any person from Accounts, regardless of role.
